COMPANY BACKGROUND

Broman Wireless International, founded in the Silicon Valley, believes in maximizing the human potential by providing innovative and cutting-edge communication solutions for a flat world. Broman provides creative products and services that are simple-to-use and very cost-effective.

◆ **HISTORY**

Broman Wireless International, LLC was founded in April 2005 and Incorporated in California, August 2005. Our Headquarters and R&D facility are based in the Silicon Valley.

◆ **OVERVIEW**

Broman Wireless International, LLC is the leading provider of Internet-based Voice Over IP (VOIP) phones solutions for business, residential and Institutional clients world wide. We have integrated our proprietary USB communicator dialing device along with the global network service providers to offer unlimited free outgoing calls to more than thirty three (37) international Destinations.

Broman™ has established network of sales and support offices located in the United States, Singapore, China and soon to come Broman™ Philippines, India and Mexico subsidiaries.

◆ **OUR MISSION**

To be the best global telecom service company in the world. We commit ourselves to providing reliable, state-of-the-art technologies that keeps a step ahead of ever-changing needs of affordable real-life telecom™ for our customers.

Real-Life Telecom™
